NO ATTACK ON PANAMA.

WASHINGTON, Jan. 21.—Dr. Silva. the Colombian Minister, is encouraged to believe that there will not be an attack on the city of Panama by the revolutionary forces, as the voluntary retirement of Gen. The House, having adopted the Nicaragus Canal Bill, the advocates of that measure are confident that a conference between the House and Senate committees would result more likely in the Senate yielding to the Benate, as there is no great difference in the estimated cost of the canal, and only a slight leaning one way or another on the part of the Canal Commission toward either route.

To say that the report of the Canal Commission has settled the matter in fayor of Panama is incorrect. The President undeubtedly is in favor of having a canal bill hurried to final passage, though it is not known that he has any opinion as to the desirability of any particular route. With his characteristic vigor be informed the Canal Commission, as soon as it met last week, that he wanted a report not later than Saturday afternoon, so the commission was limited in time for consideration of the matter. The majority having declared in favor of the Panama route on a test vote, Friday and Saturday were spent in a finally successful effort to secure a unanimous report.

BENATE IS FOR CANAL.

BY DIRRET WHRE TO THE TIMES.]

WASHINGTON, Jan. 21.—{Exclusive Dispatch.] Senator Aldrich of Rhode Island, chairman of the Finance Committee and party manager for the Republicans on the floor of the Senate, was in his seat today for the first time since the holiday pecses. After looking the ground over, Senator Aldrich said today: "In my judgment, the Senate will insist upon a canal within reasonable time, and after full examination of both routes, will proceed to act at this session upon the principle that a canal should be authorized before we adjourn."

Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Okiahoma, Oregon, South Dakota, Utah, Washington and Wyoming, including the surplus fees and commissions in excess of allowances to registers and receivers, and excepting the 5 per cent. of the proceeds of the sales of public lands set aside for educational purposes shall be set aside and piaced as a special arid-iand reclamation fund.

The Secretary of the Interior is directed to make the necessary examinations and surveys, and to locate and consolidate these irrigation works, reporting to Congress at the beginning of each session the results of examinations and surveys, with estimates of the cost of all works. The bill empowers the Secretary of the Interior to

required for any irrigation works, and to restore them whee, in his judgment, they are not required for irrigation purposes.

The bill authorizes the Secretary of the Interior to let contracts for the work, and to limit the area per entry to that reasonably required for the purpose of a family, and to fix the charges therefor, as well as the charges on lands in private ownership benefited by government irrigation plants.

A day's labor is fixed at eight hours. The bill prohibits the employment of Asiatic labor. No right to use the water for land in private ownership shall be sold for a tract-exceeding 180 acres to any one person, and no right shall permanently attach until all payments therefor are made. When the payments are made for the major portion of the lands irrigated, the management and operation of, but not the title to, such irrigation works, excepting reservoirs and works necessary for their protection, shall pass to the owners of the lands irrigated thereby, to be maintained at their expense under rules and regulations to be prescribed by the Secretary of the Interior, who also is empowered to acquire rights of property by purchase or condemnation.

(FY DIRECT WINE TO THE TIMES.)

RELENA (Mont.) Jan. 21.—(Exclusive Dispatch.) Misconstruction of the recent order of Commissioner Jones of Indian Affairs has caused a revolt among the tribes on the Fort Belknap Reservation. It became noised about among the Belknaps, Cheyennes and Bioug who live on the reservation that all of them must cut off their hair if they remain within the reservation limits. The news was generally received with sullen looks. This soon gave way to excited colloquies, and the Indians are now dancing war dances, in open defiance of authority. Couriers have been sent to all the big chiefs, summoning them to a council of war, to debate on this last "insult" offered to the defenseless reds. It is apparently too late to contradict the wrong impression and explain to the Indians the correct meaning of the order, and serious trouble is feared, only to be settled by force of arms.

FINANCING OF SANTA PE.

WASHINGTON, Jan. 21.—[Exclusive Dispatch.] Men in Washington who follow railroad manipulation are wondering what is meant by the fact that the banking house of J. P. Morgan & Co., New York undertook the financial recently of the \$30,000,000 bind is sue put out by the Atchison, Topeka and Santa Fé Railroad.

This road has for many years done its banking business through the banking houses of Kuhn, Loeb & Co. and Speyer & Co. Those two houses are the natural enemies of Morgan & Co., They were the banking houses which caused the panic of May 3 last by trying to wrest control of the Northern Pacific Railroad from Morgan and Hill. It is believed here, where such things are watched, that Morgan's entrance into the Atchison's finances means that he proposes to enter the southwestern railroad field through his interest in the Atchison.

BIG DEAL IN STEAMSHIPS.

(BY DIRECT WIRE TO THE TIMES.)

LIVERPOOL, Jan. 21. — [Exclusive Dispatch.] The World's correspondent hears today on good authority that the real object of the visit of the White Star and Leyland directors and marine lawyers to America is to complete negotiations for the sale of the White Star line's Atlantic fleet, business and good will to the J. Pierpont Morgan syndicate.

The White Star progrietors, after some members of the Ismay family had held out, have agreed to sell at a price amounting to several millions sterling. The White Star's Atlantic passenger fleet consists of more than 30,000 tons net, with the Cedric of 21,000 tons, the largest vessel in the world, now laid down in the Belfast yards of Harland & Wolff. Besides the Oceanic, Majestic, Teutonic, Celtic, Cymric, Germania, Britannic and Cedric, there are, five freight and live-stock steamers, the Georgic, Cevic, Nomadic, Tauric and Bovic, aggregating 40,000 tons. The purchase would amount to more than one hundred and twenty thousand tons.

The White Star Company will retain its entire colonial fleet, embracing the Australian and Pacific services, thereby resembling the reservations made by the Leyland line when it sold out to the Morgan syndicate last Int THE NEW ASSOCIATED PRESS—P.M.I

HONOLULU, Jan. 14.—[A. P. Correspondence. Wired from San Francisco Jan. 21.] The labor unions of Honolulu are entering into a combination against Asiatic labor. There is a great deal of work about to be done at Pearl Harbor by the national government, and it is feared that if an order or ruling preventing employment of Japanese or Chinese is not secured, the Asiatics will do a great part of the work. At the ame time there is general discussion in Honolulu as to means of keeping the Asiatics on the plantations for which they were brought into the country. There are said to be 30,000 of them in the city of Honolulu, practically all of them deserters from plantations.

Land Commissioner E. S. Boyd leaves today for Washington, by order of the local government as to the proposed land law for Hawaii, Boyd favors the system now in vegue in Hawaii, and will try to have Congress enact such a measure. Boyd goes largely for the purpose of trying to have a Congressional commission visit the lands to investigate the land question before any action is taken at Washington. So many burglaries and petty rob-

beries hav occurred in Honolulu recently that there is talk of a vigilance
committee, and many people have bee
arming themselves to protect their
homes. Hold-ups have been very frequent. J. Cheek of the Bank of Hawaii had a lively encounter with a

COLLECTIVE NOTE FROM POWERS TO UNITED STATES. England's Refusal to Join Killed Plan

It is Alleged That France, Germany and Russia Backed Austria in Pro-

posed Interference in Spanish War.

IDN THE NEW ASSOCIATED PRESS—A.M.1 LONDON, Jan, 21.—[By Atlantic Cable.] Inquiries made by the Associated Press concerning the "subsequent proposals" regarding foreign intervention in the Spanish-American War in the Commons yesterday elicited important information from the Foreign Office. It was stated Great Britsian had been twice formally approached on this matter, but only once after the commencement of hostilities between Spain and the United States. Lord Cranborne's references to more than one proposal were evidently generalizations which included the initiative proposals not officially recognised.

The occasion upon which Great Britain deliberately put down her foot was, according to the Foreign Office, when the Austrian Ambassador at London interviewed Lord Salisbury, and asked him if Great Britain would be willing to join in a colicctive note from the European powers urging the United States to desist from war with Spain. Such a note was not to threaten reprisals or intervention, but was to be in the nature of a strong protest and a piea for arbitration.

be a party to any such step, especially in view of the late President McKinsel ley's attitude toward the ante-bellum efforts of European powers to avert war. The Foreign Office heard nothing more on this subject, the matter of a collective note apparently being dropped.

Regarding the more disputed question as to the powers who were approached to sign this note had Great Britain acquisaced thereto, a statement of a high official of the Foreign Office says:

"We have no documentary evidence to prove that any other power than the one which formally approached us was concerned in this effort to send a collective note to the United States, the purport of which, however polite the wording, must naturally have been that of a threat. We had at the time, however, every reason to believe that this power was merely put forward as a sort of buffer, in order to sound us, and that France, Germany and Russia were behind her, and only awaiting our assent formally to change that belief, which, in the case of France, amounts to moral certainty.

"There are a hundre dead of the series of the ser

which, in the case of France, amounts to moral certainty.

"There are a hundred and one diplomatic secrets which, pieced together, convinces us that our estimate of the situation was correct, and doubtiess there are documents in the European chancellories which detail the negotiations that occurred prior to our being approached, as subsequent diplomatic reports convinced us that not only was the collective note dropped on account of our refusal, but that we inurred not a little enmity because of our action."

WASHINGTON AUTHORITIES.

THE NEW ASSOCIATED PRESS. P. N. WASHINGTON, Jan. 21.—The State the United prevent the United States from going to war with Spain. Lord Cranborne's statement in Parliament yesterday is recognized as absolutely correct as far as it went, but there are chapters in the story which he did not touch upon, and it is recognized here as inexpedient to develop all the facts, even now, lest animosities spring up without sufficient reason.

GERMANY'S DENIAL.

REFUSED TO INTERVENE.

(BY THE NEW ASSOCIATED PRESS.-P.M.)
BERLIN, Jan. 21.—[By Atlantic Cable.] The Foreign Office denies that
Jermany desired, or associated itself

ble.] The Foreign Office denies that Germany desired, or associated itself with any other government that may have sought to bring about European intervention in the Spanish-American War. The following statement was handed to the correspondent of the Associated Press:

"The Foreign Office declares with all positiveness that Germany neither before the outbreak of the Spanish-American War, nor during its course, proposed intervention to other powers. Neither did Germany support such a proposition made by other powers. Neither did Germany support such a proposition made by other powers, it is true that in several instances suggestions were made to the German government from other sources in the sense of intervention. But the German government, without exception, maintained a negative attitude toward such suggestions, and made known its negative standpoint whenever occasion offered. It must further be remarked that it was not from an Austrian that such suggestions reached the German government."

Some annoyance has been expressed in official circles here that the British Under Secretary for Foreign Affairs, Lorn Cranborne, and the British Foreign Office at this moment should make statements tending to discourage the growing good feeling between Germany and the United States, and seemingly designed to spoil the pleasant prospects of the visit to the United States and Prospects of the visit to the United States and Prospects of the visit to the United States and Prospects of the visit to the United States and Prospects of the visit to the United States and Prospects of the visit to the United States and Prospects of the visit to the United States and Prospects of the visit to the United States and Prospects of the visit to the United States and Prospects of the visit to the United States and Prospects of the visit to the United States and Prospects of the visit to the United States and Prospects of the visit to the United States and Prospects of the visit to the United States and Prospects of the visit to the United

GEORGE GARDNER KILLED

GEORGE GARDNER KILLED.

TWO OTHERS ARE INJURED.

BY THE NEW ASSOCIATED PRESS—A.M.1

ANGELS CAMP, Jan. 21. — George Gardner, who has for a long period conducted the well-known resort known as Gardner's near the big trees, was killed in the Morgan Hill mine last night, and Fred Dunsmore and Gus Hershberg were both injured, the latter probably fatally.

The accident happened at 11 o'clock last night. In the darkness, Gardner failed to notice that a platform used to cover the mouth of the shaft when the cage is at the bottom, to prevent accident, was not in its place, and he pushed the empty car into the shaft, supposing that the cage was there to receive it. He went down a distance of 178 feet with the car. A projection in the shaft tore his groin, and he bled to death in fourteen minutes. An arm was also broken, and he received internal injuries that would have proved fatal.

PORTLAND (Or.) Jan. 21.—No other
port in the United States except San
Francisco shipped more wheat in December than was exported from Portiand. The shipments from this city
for the month amounted to nearly onefifth of all that was shipped from the
United States last month, and exceeded those of New York, Baltimore,
Philadelphia and Galveston combined.
The very prominent part that the
Pacific Coast is taking in the wheat

company. The deal was closed late yesterday, and announced this morning.

This mill, which figures largely is the local output of four and millstuffs, was start d in the early days by Edward Joseph and the late Hank Deming. The plant has been removed from time to time, keeping pace with the latest improvements in machinery, so that it is up to date, in every respect.

This adds another to the already large number of milis controlled or owned by the Sperry Flour Company. The list includes the following: Buckeye mill of Marysville, Chico mill, Pioneer and Sacramento mills of Sacramento, Fresne mills, Hollister mill, Paso Robles mill, Sainas mill, San Luis Obispo mill, San Jose mill, Sperry and Union mills of Stockton.

The combined daily yield of these mills is 8000 barrels of flour, which means a consumption of 32,000 sacks of wheat per day.

TOO MUCH CHRISTMAS.

CAUSED RIOT ABOARD SHIP.

IN THE NEW ASSOCIATED PRESS—P.M.1

SAN FRANCISCO, Jan. Zl.—News
was received by the steamer Argyli
today that a riot broke out on the Pacific Steam 'Navigation Company's
steamer Columbia at Panama on
Christmas Day, and that several members of the crew were perhaps fatally,
or, at least dangerously wounded.

The Columbia was on the way down
the coast to Valparaiso from this port,
and through the kindness of Capt.
Hughes nearly every member of the
crew, composed principally of Chileans
and Peruvians, celebrated Christmas
by imbibing freely of wine.

Details of the fracas that resulted
on board the big passenger steamer
will not be available for some time,
but people on the Argyll and on shore
at Panama heard many shots fired,
and saw the flash of many knives on
the Columbia, and Capt. Hughes is reported to have rushed along the decks,
armed with a gun, making efforts to
quell the riot that had broken out.

There is no report of any deaths as
a result of the fighting.

For seven years previously, he was a deputy sheriff and constable, making a total of fifteen years that he has acted as peace officer in this county. Street gossip has it that his motives for resigning are political; that he is looking to be a candidate for Mayor on the Reform ticket, and has resigned to leave himself unhampered. This the ex-Chief strenuously denies.

sion, had been established only after the most careful investigation, covering several months, and it was obvious to the committees of the two houses that they could not hope to improve upon that act.

Mr. Lodge said that to discriminate in favor of the United States on products going to the Philippines would diminish the revenues and would break down the policy of the "open door."

The United States had, by its firmness and its excellent diplomacy, accomplished the establishment of that policy in China, and China would be for years the most important market for products of the United States. He explained the Senate committee's reduction of the Dingley rates to the extent of 25 per cent, saying the committee had not felt it wise to make a further reduction. The exaction of the remaining duty could not be considered onerous, in view of the fact that all the moneys thus collected would be returned to the Philippines.

Mr. Lodge said that the removal of the export duties did not effect the "open-door" policy; if it did he would oppose it. Nor could the policy give offense to Spain under the treaty between that country and this. He defended the policy of the free importation of hemp as in the interest of the agricultural element.

Mr. Spooner asked if the policy of refunding the export tax on hemp would not have the effect of causing all the hemp grown in the Philippines to be brought to the United States and thus deprive the Philippines of the entire revenue derived from that source.

Mr. Lodge replied that the provision applies only to hemp "for use in the United States." The regulation of the support duty on hemp would apply to all other articles originating in the Philippines. Mr. Lodge said the Philippines. Mr. Lodge said the Philippines. Mr. Lodge said the Philippines. In reply to Mr. Bacon, Mr. Lodge said that the war pepartment had had severe prosperous, and he quoted a circular letter to German exporters in support of this possibility. HOUSE PROCEEDINGS. WASHINGTON, Jan. 21.—HOUSE.—
The House, without preliminary business today, went into committee of the whole and resumed the general debate on the Urgency Deficiency Appropriation Bill. Mr. Sibley of Pennsylvania opposed the government entering at this time upon a scheme for the firigation of the arid lands in the West. He believed the whole question was for another generation. Members representing an agricultural constituency should oppose a measure which involved the expenditure of untoid millions to be taken by taxation from all. He spoke of the decline in value of arid lands in Eastern, Middle and Southern States, yet this was a proposition to open uphundreds of millions of acres more in hundreds of millions of acres more in open competition with these farms. "Let us wait," said Mr. Sibley, "until our increased population shall se expand that these lands shall be needed to meet the demand for a greater food supply. To my mind, if we undertake the present accomplishment of irrigation, we shall be pressing a poisoned chalice to the inps of the farmer classes in this nation, which, if it does not kill then, will at least leave them for another generation in torpor or misery.

THE PRESIDENTS ATTITUDE.

(BY DIRECT WIRE TO THE TIMES.) WASHINGTON, Jan. 21.—[Exc Dispatch.] The President's attluward the Kahn Chinese Exclusion Bill is causing considerable comment among the members of Congress. The President takes the ground that the United States ought to exclude Chinese, but that such exclusion must be accomplished in a manner that is least objectionable to the Chinese government. The Kahn bill was drawn to a considerable extent by labor agitators, who have come here. They have injected into the bill some of their notions regarding Chinese exclusion, disregarding all considerations and interests other than their own.

It is known here that the President favors the passage of the Lodge Ex-

It is known here that the President favors the passage of the Lodge Exclusion Bill, because that excludes Chinese upon the same basis that the Geary act has excluded them. That bill will offer no mortal offense to China, for she has already agreed to it by treaty and seems in the mood to resume the treaty agreement. The President feels that, in indorsing the exclusion bill he should keep in mind the great trade the United States now has with China and also the possibilities of the development of that trade, so while he wants to exclude Chinese and at the same time keep. Chinese trade and friendship, he does not believe that, under the Kahn bill, that can be accomplished. In his opinion, the Lodge bill offers the solution for the problem.

WASHINGTON, Jan. 21.—The subthe present accomplishment of irrigation, we shall be pressing a poisoned chalice to the lips of the farmer chanses in this nation, which, if it does not kill ther, will at least leave them for another generation in torpor or misery."

Mr. Newlands of Nevada, an earnest advocate of the irrigation of the arid lands, replied to Mr. Sibley. He explained the provisions of the bill, which it was proposed to present to the House, to show that it would not create a charge on the public treasure, but would employ only the funds raised from the sale of arid lands for the work of reclamation. He argued that the irrigation of western arid lands would not constitute a threat against the farmers of the older States. While there were 606,000,000 acres of arid lands in the West, he said, there was not water enough to reclaim more than 90,000,000, an area twice as large as lows, and generations would be required to bring all these lands under irrigation.

PLATTSBURGH (Mo.) Jan. II.—In
the case of Mrs. Addle B. Richardson,
charged with the murder of her husband, Frank W. Richardson, a merchant of Savannah, Mo., the taking of
evidence began this afternoon.

The leading families in the town
were represented in the audience in
the couriroom today, among them being
several women. Besides the prisoner,
Mrs. Richardson's three small children,
John D. Richardson of Chicago, westera manager for the National Biscult
Company, a brother of the dead man,
were there. There is a large array of
attorneys for both sides.

Mrs. Richardson was apparently unaffected by the reading of the indictment, which charged murder in the
first degree. C. F. Booher, in presenting the case for the State, told of the
murder at the Richardson home on
the night of December 24, 1909. Richardson had planned to accompany his
wife to a Christmas entertainment. At
the last moment, she telephoned to him
at the store that she had decided not
to go.

reduction of the duty on that

States is increasing so rapidly as to warrant Secretary of Agriculture Wilson in asserting that, within ten years, this country will be able to produce all the sugar which it consumes, and soon after to have a surplus for export. There are said to be more than accountry new best-sugar factories. The unique best-sugar factories are there for the purpose of preserving order. It might become their terrible duty in the effort to protect life and property to shoot down Cuban rioters.

"Has it ever occurred to Mr. Oxpared to Mr. Ox

on Cuban sugar. In a special dis-patch to The Times from Washington, published on Sunday, absolute denial is given by Henry T. Oxnard to the is given by Henry T. Oxnard to the statement, currently circulated, that he had "fallen down" to the sugar trust; or had modified his views in regard to a reduction of duty. The oftgiving of John D. Spreckels on the subject is easily explained, when it is remembered that the Spreckels Company refines cane sugar nine months of the year and works up beet sugar during the other three, so that sits interests in beet sugar are much
less than those in cane sugar. Mr.
Spreckels, while inviting a reduction
of duty on raw sugar, is extremely
anxious that the duty on refined sugar
should under no circumstances be reduced. In other words, he wishes the sugar refineries to be protected, but, so far as he is concerned, the farm-ers who raise the beets may go to the devil. Fortunately, Mr. Spreckels is not exactly the Congress of the United States.

There are several reasons against the admission of sugar from Cubs druy free, or at a serious reduction from the present tariff. The chief of these are: (1.) It would damage and dis-courage the extension of a great and promising American industry, which, though yet in its infancy, may, under favorable conditions, supply the entire sugar consumption of the United States within a few years. (2) It is doubtful whether the saving made by

Congress and the country, and that, in view of his attitude and of the cost and peril of any course that would satisfy him, he and his beetsugar, interests are entitled to no further consideration."

As a comment upon this article, it is only necessary to call attention to the fact that the views and the actions of Henry T. Oxnard are interesting and important simply because he represents one of the most important and promising industries of the United States—the culture, of sugar beets and the manufacture of leet sugar—an industry which, it adequately protected against the comsugar beets and the manufacture of beet sugar—an industry which, if adequately protected against the com-petition of cheap foreign labor, prom-ises within a few years to furnish re-numerative estimatoryment to hundreds. numerative employment to hundreds of thousands of American farmers, and to distribute among them and American workingmen many millions of dollars, whereas the industry represented by the American Sugar Refining Company, otherwise known as the sugar trust, is of far less importance to this country, as it only involves the employment—mostly at ex-

but they do not think that the beetsugar industry should bear the brunt
of this country's generosity. The Republican party has squarely gone on
record as favoring the protection of
the American beet-sugar industry.
Now, if the party should strike a blow
at that industry in which so many
at marican farmers are interested. at that industry in which so many American farmers are interested, while continuing to protect industries that are represented by trusts, it would certainly have much inconven-ient and difficult explaining to do in the next campaign. This, it is true,

A FUTILE MOVEMENT.

It is not in the least proba and who have been for a year or more actively at work in the United States succeed in these objects, it will cer-tainly not be for lack of "perniclous tainly not be for lack of "pernicious activity," for they are unceasing in their efforts in that direction. It would be singular, indeed, if these persistent partisans of a lost cause did not succeed in stirring up the sympathies of some people. Otherwise they would have nothing whatever so show for their arduous and unceasing efforts.

In e Times from New York, published in yesterday morning's issue, is that planned by Charles D. Pierce, Consul in New York of the late gouth African republic (so-called.) Mr. Pierce's scheme is to get up a gigantic petition to Congress, asking that steps be taken by our gramman. tion to Congress, asking that steps be taken by our government "for media-tion with England, and to secure ar-bitration, with a hope of ending the Boer war." It appears that "for ten months, Pierce has had 19,000 persons, engaged in circulating petitions throughout the United States." He hopes to obtain 2,000,000 signatures to this petition, and it is his purpose "to divide them up according to the

section of the country they came from, and send to each member of Congress a petition signed by the people of his own district."

This sort of thing, as The Times has heretofore pointed out, will be futile to effect any change in the status of the South African war, or to alter the attitude of our government in the premises. In the first place, the constant to have is supplies for expectable and property to show departs of the sugar which it cleasures, and so as the relief to have is surplus for expect. There are said to be more than severely now because and for the supplemental countries of the planned or under contemplations in the United States. San Jesquin Valley Commercial Association Will Establish Bureau in Les Angeles to Reach Tourists.

EFECIAL CORRESPONDENCE OF THE TIMES.)
BAKERSFIELD, Jan. 11.—The San Joaquin Valley Commercial Association has taken steps for the extensive and immediate advertising of the section embraced within its scope, having decided to establish a bureau in Los Angeles under the direction of A. E. Miot of Tulare.

The object of the association is to bring people to this valley, and in aid of the plan descriptive matter will be printed and distributed for the information of tourists in Los Angeles. The selling of lands will be carried on through the bureau, and in order to effectually guard against wild-catting and faking, only those properties which have been passed upon by local boards of trade will be considered.

STRICTLY RELIABLE.

INTERFERENCE with the process of waste and repair is the principal cause underlying men's chronic aliments. To cause a cessation of this interference means to put men in a most healthy condition and restory lost vital force, which is the great essential to the permanent health of men.

SYMPTOMS must be studied, analyzed and, compared, and in this most important part of the SPECIALISTS work, long experience with all the various forms and complications of the disease, succeeds when those whose knowledge of a limited experience will fail.

Dr. Harrison Cures Varicocele in 5 Days. TANY WEAK TEN suffer from loss of vitality which has for its underlying cause a diseased condition of the vital vatue which supply the life blood of sexual power.

The Reason Why Old Chronic Disorders Are Not Cured Under the Treatment Usually Employed.

There are conditions of the diseases of the urethral trust, is the mais, which are very confounding to an inapperienced person, and which are treated unancessfully in a promiseuous way, from least of knewledge of the true condition and its cause. Dr. Harrison's method of getting at these causes and remering them, is far superior to may herestofore employed.

UPON EXAMINATION for the urethra with electric light we find spots, patches and areas of leaslined disease tissue, which is the cause of so much trouble and which produce weakening symptoms in men in painful microtrition and marrowing of the casal.

THESE CONDITIONS are further aggravated by excesses and social dissipation, the patient not aware of the true cause of the trouble, and which causes strictures, acromma and tenderanes of the entire apparatus, and in many costs printings affirmation of the bradder.

THE FIRST ESSENTIAL in the treatment of these cases is to locate the trouble and to determine its nature dul to associate if there is superficial utcertation and thickening of the waits of the casal, which consists of a mass of diseased tissue, producing disordered function of the organ.

BY THE DIRECT application of our local on-chemic treatment we remove and cure these chronic consistent in a few treatments, from the fact that we get at the cause of the trouble.

WE ESPECIALLY invite cases that do not yield to other methods of treatment.

La Mariposa's New Officers.

La Mariposa Ciub, one of the popular secial organizations of the city, has elected its officers for the ensuing term as follows: President, John Korbel, Jr.; vice-president, H. E. Marmont; treasurer, C. P. Clifford; recording secretary, Charles Kochler; corresponding secretary, J. O'B. Bodkin; the new officers were installed at the last meeting of the club, which was followed by a banquet. Invitations are but for the club's grand hall to be given on February 4 at Kramer's Hall.

Nictor Thylen came to Los Angeles a few days ago from Texas, and after risiting the various points of interest in and about the city, decided last night to take a trip through the crib flistrict on Alameda street. The templations were too much for him, and he became acquainted with two Prench women. Blanche Meunler and Jennie Wilson. He had a number of drinks with the women, a large number, and when about to leave them he missed 1% in currency, and accused the women of having robbed him. Of course they denied it, but they were arrested on a charge of grand larceny.

Parmer Stevenson.

Parmer Stevenson.

"Farmer" John Stevenson was renawing acquaintances at the Police
Station yesterday. Stevenson is a retired member of the force. After
valking a beat a number of years he
became so hadly afflicted with sciatic
rheumatism that he was pensioned off
und giver up to die. Rest and good
medical attendance brought him to his
feet again, and then he turned farmer
by renting a piece of ground in the
giver bottom adjacent to Boyle Heights.
Lang before Stevenson was either a
policeman or a farmer, he was a soidier, and narrowly escaped having his
scalp raised at the time of the Custer
massacre.

Local Democrate are moving with real sincerity. It is said, to establish a daily paper in Los Angeles, and important parts of the equipment necessary for the publication of the sheet have been ordered from the manufacturers.
